REMARKS

The figures of births and deaths for the week ending 5th January, 1963 shown in this statement relate to 271 towns in the States of Andhra Pradesh, Assam, Bihar, Delhi, Gujarat, Jammu & Kashmir, Kerala, Madhya Pradesh, Madras, Maharashtra, Mysore, Punjab, Rajasthan, & West Bengal. These towns account for a population of 38541 thousand out of a total population of 54336 thousand in the country in 435 towns, each having a population of 30,000 and over.

In 207 towns having a population of 29706 thousand in Group I, where registration is comparatively more complete; 20760 births and 6364 deaths were recorded giving a birth rate of 36·3 and a death rate of 11·1 per thousand of population. The rates registered in the various States are as follows :

State	Current w/e 5-1-1963			Corresponding w/e last year

The table given below shows the annual vital rates for each of the years 1957–61 for all municipal towns, each with population 30,000 and over based on the final yearly data. The corresponding annual rates for 1961 and various periods in 1962 compiled from the weekly figures, which were published from time to time in this Supplement, are also shown to draw attention to their possible use in tracing current trends.

Appropriate adjustments in the population base were made in cases, where the data for any town could not be included. The rates for States not shown are much too deficient for being presented. Even the data for States, which are shown are deficient to a varying degree. Efforts have to be made to improve their completeness.

The two sets of rates for 1961—one based on the annual returns and the other weekly returns—are presented to give an idea of the extent of variation between the final and the weekly figures. The two agree closely in the case of Gujarat, Punjab and Orissa only, otherwise for other States the difference is quite appreciable. However, the rates for all the eight States combined agree fairly well showing that, perhaps with emphasis on the improvement of the completeness of State figures, they may help in studying current trends.
